Spot unauthorized access patterns
- **PDF Reports**
Court-ready documentation

■ LIVE SCAN VIEW

The screenshot shows the 'LIVE SCAN VIEW' interface. At the top, there's a status bar with 'SCANNING' and 'ANALYZING: MEDIA FILES' indicators, and a timer showing '00:47'. On the left, a sidebar lists categories: 'DEVICE INFO', 'APPS', 'BROWSER', and 'MEDIA'. The main panel is titled 'DEVICE INFORMATION' and contains two sections: 'SYSTEM IDENTIFICATION' and 'USB DEVICE HISTORY'.

SYSTEM IDENTIFICATION		
COMPUTER NAME	OPERATING SYSTEM	ORGANIZATION
INVESTIGATOR-PC	Windows 11 25H2	Sample County SO

USB DEVICE HISTORY		
DEVICE NAME	VENDOR	SERIAL
USB SanDisk 3.2Gen1	_USB	4C530001...
Kingston DataTrav 64G	_USB	E0D55EA5...

TRUE TRIAGE

Not a Forensic Suite. A Rapid Investigation Tool.

Scout scans targeted locations where contraband is commonly stored — delivering fast, actionable leads without the overhead of full-disk forensics.

HOW IT WORKS

01

Download & Install

Download from dpscout.com.
Run the Windows installer.
No complex configuration.

02

Register Your Agency

Enter agency details on
first launch. 60-day trial
starts immediately.

03

Begin Investigation

Connect a device, import
hash lists, scan. Generate
reports from findings.

WHAT SCOUT SCANS

- ✓ Browser history & search terms
- ✓ File names, paths & metadata
- ✓ Known-contraband hash databases
- ✓ Images & videos in targeted locations
- ✓ Keyword matches across artifacts
- ✓ USB device connection history
- ✓ Installed applications list
- ✓ System intrusion indicators

SUPPORTED DEVICES

USB Storage

Thumb drives, external HDDs,
SD cards

Android Devices

Photos, SMS, browser history,
app artifacts via ADB

Windows PCs

Local system triage and
artifact scanning
